

## The Eastern European Gas Market Outlook

### Introduction

Country profiles of supply, demand, regulation and infrastructure

Europe's gas markets are rapidly changing and opening up to liberalization and new market entrants, this is particularly evident in the highly dynamic Eastern European markets. The Eastern European Gas Market Outlook: Country profiles, demand, regulation and infrastructure is a management report that provides in depth analysis of the gas market landscape in each of the major Eastern European markets and predicts future market growth.

This report provides an in-depth analysis of 8 highly dynamic Eastern European gas markets, with detailed data on supply and demand balances and coverage of the implementation of the EU Gas Directive. The country profiles also feature an overview of supply and demand, an examination of key governmental, legal and political influences on the sector and an analysis of wholesale trading and the pipeline, LNG and storage infrastructure with forecasts to 2010.

Identify and exploit the profit opportunities created by expanding markets for gas in Eastern Europe

# Emerging Markets Online

GLOBAL ENERGY AND UTILITIES MARKET RESEARCH

**Emerging Markets Online** specializes in market research support for international business development executives.

## Customized Consulting Services

### Introduction

**Emerging Markets Online** (EMO) provides customized market research and consulting services for the energy, telecommunications and utilities sectors worldwide. EMO specializes in providing each customer with personalized market research and business development support. Our global team of consultants specializes in management consulting, marketing and distribution strategies, project finance, tender and bid support, supplier strategies, and partner facilitation.

### Research and Consulting Services

When you are preparing for a specific project, EMO's team can help. We will work with you to identify and assess emerging market opportunities and challenges. EMO helps clients to:

- ⇒ Develop research initiatives with direct surveys of markets, competitors, prospective suppliers and government regulatory and procurement entities;
- ⇒ Perform due diligence and investigative research on specific companies;
- ⇒ Identify new business opportunities in regional and local markets;
- ⇒ Facilitate Joint Venture activities and identify prospective partners;
- ⇒ Provide assessments of sales and distribution channels;
- ⇒ Track competitor's activities;
- ⇒ Forecast market growth potential for products and services;
- ⇒ Analyze new trends in the industry;
- ⇒ Acquire strategic information on utility markets deregulation, liberalization and privatization initiatives;
- ⇒ Develop strategies for competitive tenders and bidding scenarios

**Emerging Markets Online** provides targeted research solutions to help you reach your business development goals.

## Customized Consulting Services

### Recent Consulting Projects

EMO has helped dozens of clients worldwide assess emerging market challenges and identify new growth opportunities. Here are a few examples of recent projects EMO has completed for our clients:

- ⇒ EMO advised the M&A director for a major multinational E&P corporation on how current LNG projects are structured and financed. This included an analysis of the mix of private finance, commercial finance, ECA and multilateral finance, and engineering finance in current projects. The assignment included a matrix of how current LNG projects are financed by participant and percentage. EMO also provided details of how key LNG projects were structured and financed in Egypt, Trinidad, Qatar, Oman, Baja Mexico, and Nigeria. Finally, we identified three major trends in the financing of LNG projects.
- ⇒ Consulted a major Russian oil and gas company on the practices of U.S. refinery operating companies. Performed a survey of refinery companies, detailing management practices, investment and purchasing activities, refinery manager roles and responsibilities, and downstream operations. Produced a report of recommendations for applying western practices in refinery management and operations to Russian firm.
- ⇒ Supported a major law firm with an in-depth assessment of South Africa's natural gas market. Produced a survey and a report of key players, existing operations, exploration activities, pipeline developments, major contracts, pricing mechanisms, and the outlook for downstream natural gas markets
- ⇒ Consulted a major U.S. pipeline company in its transition from an energy utility to a broadband telecom services and trading company. Activities include due diligence, competitor assessments, supplier surveys, and regulatory analysis.
- ⇒ Produced a due diligence assessment on a major electric and natural gas company's operations in Latin America
- ⇒ Created a market assessment for a major European utility regarding the market for power generation, transmission and distribution in eastern Europe
- ⇒ Identified prospective buyers for a cellular license for a Latin American country in support of a big-five consulting firm's representation of a Latin telecommunications operating company
