

Tunisia Oil and Gas Report

Published July 2002

Available in Print for
\$895 USD, PDF/Acrobat
format for \$1195 USD

Tunisia does not offer the staggering oil and gas reserves of its better known neighbors, Libya and Algeria. But while the country cannot boast billion barrel fields or huge swaths of open acreage, Tunisia does offer a comprehensive and investor friendly legislative framework, numerous farm in opportunities, and competitive profit margins.

Majors and independents alike have discovered that Tunisia offers opportunities that larger oil and gas producing countries cannot match. The country's state energy company, ETAP, is one of the most progressive in Africa, and Tunisia's proximity to important markets and close ties with the European Union make it a haven for investment in both the upstream and downstream sectors.

The Tunisia Oil & Gas Report will provide essential information for individuals and companies looking to expand their investment in Tunisia's hydrocarbon sector or invest for the first time. The report will provide useful information for E&P companies, oilfield service companies, refiners, and other hydrocarbon sector professionals by:

- Providing important details about Tunisia's legal framework regarding the local oil and gas industry
- Providing essential information about the structure and policies of the state energy company, ETAP
- Supplying up to date information on farm in opportunities in the country
- Giving comprehensive information about open blocks and the industry players who might be interested in them
- Providing in depth political and economic background to help familiarize companies and individuals with the economic and social factors that could affect market participation
- Supplying a comprehensive list of the major players in the Tunisian oil and gas industry, what there latest moves have been, and what their future moves may be

Ensure you and your company remain on the cutting edge of the energy industry with our in depth analysis and risk assessment reports. Whether you're just entering the Tunisian market or have been established there for decades, the Tunisia Oil & Gas Report has the data and analysis is you need to estimate the risks, spot the opportunities, and stay ahead of the game.

Tunisia Oil and Gas Report

Table of Contents

1.0 Executive Summary

2.0 General Introduction

2.1 Geographical Conditions

2.1.1 Size

2.1.2 Topography

2.2 Climate

2.3 Society

2.3.1 Population

2.3.2 Languages and Ethnic Groups

2.3.3 Health

2.3.4 Literacy

2.3.5 Religion

3.0 The Government of Tunisia

3.1 Independence

3.2 The Head of State

3.3 Governmental Structure

3.4 Legal Structure

3.4.1 Civil Law

3.4.2 Legal Framework covering Exploration and Production

3.5 Ministry of International Cooperation and Foreign Investment

3.6 Ministry of Industry

3.6.1 ETAP's position within the Ministry of Industry

4.0 Political Summary

4.2.3 Tunisian Relations with the European Union

4.2.4 Tunisian Relations with the United States

4.3 Tunisian membership in International/Political Organisations

4.4 Tunisian Relations with International NGOs

4.5 Tunisian Political Risk Profile

5.0 Overview of The Tunisian Economy

5.1 Key Economic Statistics

5.1.1 Currency and Exchange Rate

5.1.2 GDP and Growth

5.1.3 Cost of Living

5.2 Banking System

5.2.1 Domestic Banks

5.2.2 Foreign Banks

5.2.3 Development Banks

5.2.4 Investment Banks

5.3 Budget

5.4 Current Account

5.5 Inflation

5.6 Fiscal Position

5.7 External Accounts

5.8 External Finance

5.9 Financial Infrastructure and Investment

5.9.1 Tunis Stock Exchange

5.10 Agriculture

5.11 Mining

5.12 Industrial Development

5.13 Infrastructure Development

6.0 History of the Tunisian Oil and Gas Industry

6.1 Early years

6.2 Present Period

6.3 Government Involvement

6.3.1 Energy Policy

7.0 ETAP

- 7.1 Structure
- 7.2 Role within Tunisian Oil & Gas Industry
- 7.3 Relations with Foreign Oil Companies

8.0 Oil & Gas Rights

- 8.1 Acreage Offers
- 8.2 Pre-Qualification requirements
- 8.3 Pre-award and Negotiations
 - 8.3.1 Data Packages
 - 8.3.2 Work Commitments
- 8.4 Standard Terms and Conditions of the Production Sharing Agreement
 - 8.4.1 Cost Oil and Profit Oil calculations
 - 8.4.2 Social Responsibility
- 8.5 Farm-in Opportunities
- 8.6 Renewals and Renegotiations

9.0 Geology and Geophysical

- 9.1 The Geology of Tunisia
- 9.2 Existing Basins
- 9.3 Available Data on Free Blocks
- 9.4 Geophysical Operations

9.4.1 Geological and Geophysical Contractors present in Tunisia

9.5 Current Studies and Processing

9.6 Geological and Geophysical Plans

10.0 Exploration and Development

10.1 Historical Overview of Exploration

10.1.2 Trends in Exploration Activity

10.1.3 Trends in Investment

10.2 Current E&P Activities

10.3 Companies Currently Involved in E&P

10.2.1 E&P Company Activities

10.3.2 Month by Month Breakdown of E&P Company Activities Over the Last Year

10.3.3 Joint Ventures

11.0 Exploration Opportunities and Activity

11.1 Free Blocks

12.1.2 Current Data Evaluation and Exploration Activity

12.2 Offshore Potential

12.0 Service Companies

12.1 International Service Companies Operating in Tunisia

12.2 Local Agents and Service Companies

12.3 Current Service Company Activity

12.4 Current and Upcoming Tenders

12.5 Tender Process

12.6 Rig Survey

12.7 Opportunities for New Entrants

13.0 Logistics

13.1 Importation of Equipment

13.1.1 Customs

13.1.2 Documentation and Process

13.2 Port Facilities

13.3 Air Freight Facilities

13.4 Road Transport

13.5 Air Transport

13.6 Personnel

13.6.1 Work Permits

13.6.2 In Country Transportation

13.6.3 Local Workforce

13.6.4 Availability of Trained Workers

13.6.5 Employment Costs of Local Staff

13.6.6 Provision and Costs of Living Requirements

13.6.7 Safety

14.0 Oil Production

14.1 Oil Reserves

14.1.1 Recent Developments

14.2 Production

14.3 Trends

14.3.1 Prices

14.3.2 Crude Oil Export

15.0 Prospects of Future Investment in the Tunisian Gas Industry

15.1 Natural-Gas Reserves

15.2 Gas Production and Utilisation Plan

15.3 Investment Opportunities

15.3.1 Exploration and Development of Undiscovered Gas Reserves

15.3.2 Development of Discovered Gas Reserves

15.3.3 Processing and Manufacturing

15.3.4 Marketing

15.3.5 Outlook

16.0 Downstream

16.1 Existing Refining and Processing Capacity

16.2 Oil Refining and Distribution

16.3 Downstream Development

16.4 Société Nationale de Distribution du Petrole (SNDP)

17.0 Midstream

- 17.1 Existing Pipelines
- 17.2 Planned Tie-Ins and New Pipelines
- 17.3 Maritime Transport
- 17.4 Terminals
- 17.5 Investment Opportunities
- 17.6 Outlook

18.0 Current Position of Tunisian Energy Infrastructure

- 18.1 Hydrocarbons
 - 18.1.1 Prospects for Hydrocarbon Finance
- 18.2 Electricity
 - 18.2.1 Prospects for Electricity Finance
- 18.3 Investment opportunities
- 18.4 Outlook

19.0 Domestic Energy Supply and Demand

- 19.1 Oil: Supply and Demand
- 19.2 Gas: Supply and Demand
- 19.3 Electricity: Supply and Demand

Emerging Markets Online

GLOBAL ENERGY AND UTILITIES MARKET RESEARCH

Emerging Markets Online specializes in market research support for international business development executives.

Customized Consulting Services

Introduction

Emerging Markets Online (EMO) provides customized market research and consulting services for the energy, telecommunications and utilities sectors worldwide. EMO specializes in providing each customer with personalized market research and business development support. Our global team of consultants specializes in management consulting, marketing and distribution strategies, project finance, tender and bid support, supplier strategies, and partner facilitation.

Research and Consulting Services

When you are preparing for a specific project, EMO's team can help. We will work with you to identify and assess emerging market opportunities and challenges. EMO helps clients to:

- ⇒ Develop research initiatives with direct surveys of markets, competitors, prospective suppliers and government regulatory and procurement entities;
- ⇒ Perform due diligence and investigative research on specific companies;
- ⇒ Identify new business opportunities in regional and local markets;
- ⇒ Facilitate Joint Venture activities and identify prospective partners;
- ⇒ Provide assessments of sales and distribution channels;
- ⇒ Track competitor's activities;
- ⇒ Forecast market growth potential for products and services;
- ⇒ Analyze new trends in the industry;
- ⇒ Acquire strategic information on utility markets deregulation, liberalization and privatization initiatives;
- ⇒ Develop strategies for competitive tenders and bidding scenarios

Emerging Markets Online provides targeted research solutions to help you reach your business development goals.

Recent Consulting Projects

EMO has helped dozens of clients worldwide assess emerging market challenges and identify new growth opportunities. Here are a few examples of recent projects EMO has completed for our clients:

- ⇒ EMO advised the M&A director for a major multinational E&P corporation on how current LNG projects are structured and financed. This included an analysis of the mix of private finance, commercial finance, ECA and multilateral finance, and engineering finance in current projects. The assignment included a matrix of how current LNG projects are financed by participant and percentage. EMO also provided details of how key LNG projects were structured and financed in Egypt, Trinidad, Qatar, Oman, Baja Mexico, and Nigeria. Finally, we identified three major trends in the financing of LNG projects.
- ⇒ Consulted a major Russian oil and gas company on the practices of U.S. refinery operating companies. Performed a survey of refinery companies, detailing management practices, investment and purchasing activities, refinery manager roles and responsibilities, and downstream operations. Produced a report of recommendations for applying western practices in refinery management and operations to Russian firm.
- ⇒ Supported a major law firm with an in-depth assessment of South Africa's natural gas market. Produced a survey and a report of key players, existing operations, exploration activities, pipeline developments, major contracts, pricing mechanisms, and the outlook for downstream natural gas markets
- ⇒ Consulted a major U.S. pipeline company in its transition from an energy utility to a broadband telecom services and trading company. Activities include due diligence, competitor assessments, supplier surveys, and regulatory analysis.
- ⇒ Produced a due diligence assessment on a major electric and natural gas company's operations in Latin America
- ⇒ Created a market assessment for a major European utility regarding the market for power generation, transmission and distribution in eastern Europe
- ⇒ Identified prospective buyers for a cellular license for a Latin American country in support of a big-five consulting firm's representation of a Latin telecommunications operating company
